INTRODUCTION

Unlike many other business publications with too broad a remit, Northern African Wireless Communications prides itself on offering independent editorial that is tightly focused on the technologies and business of developing wireless communications networks in the region, creating a valuable, informed and loyal readership.

Now in its 19th year, Northern African Wireless Communications has become an invaluable reference tool for all those involved in the region’s wireless communications industries.

Each issue has a minimum print circulation of 7,000 and the digital version is received by over 3,100 ICT professionals. These targeted readers include management level professionals in the public sector, private industry or in the wireless communications industry itself (such as MNOs, satcoms operators, broadcasters and CSPs).

Each reader either influences, specifies or purchases wireless communications equipment, services and infrastructure – including associated consultancy, systems integration, as well as test, measurement and maintenance equipment.

As a result, advertisers can rest assured that their message will reach a targeted base of potential customers who are technology-aware, business-oriented and actively seeking wireless solutions throughout North, East, West and Central Africa.

CORE SUBJECT AREAS IN 2020:

- Cellular
- Satellite
- Fixed Wireless Access
- Critical communications
- Fibre
- RAN
- Backhaul
- Microwave systems
- In-building systems (DAS; femtocells; etc.)
- HetNets & small cells
- BSts/masts/towers
- Antennas
- Power/power efficiency
- Cables & cabling accessories
- OSS/BSS
- Security
- Test & measurement
- Network monitoring & optimisation
- Network analysis & Big Data
- Broadband/internet
- Internet of Things/smart cities/M2M
- Remote & rural connectivity
- Cloud (VNF/SDN/XaaS); data centres; IPXs
- Enterprise network services
- MFS & VAS (including mHealth: mCommerce; mLearning; apps; etc.)
- Messaging & voice services
- OTT
- Broadcast/DTH

ALSO IN 2020:

A regular look at how wireless technologies are connecting users in the following industry sectors: utilities; education; oil & gas; maritime & transportation; banking & financial; health.

DIGITAL ISSUE

Developed during the last 6 years, Northern African Wireless Communications now extends the impact of any advertisement via its digital issue distribution of over 3,300. Each issue is dispatched at least twice during the issue shelf-life and carries an embedded link on every advertisement. It is also possible to move your digital issue position, include a different advertisement or increase the number of pages.

Add to your digital profile through a banner on the magazine home page, driving our visitors to connect with your company directly.

COMING IN 2020: We will be extending the way we communicate with our readers through an e-newsletter and any advertiser within Northern African Wireless Communications will appear within some of the 2020 editions completely free of charge!

FRONT COVER FOCUS

Each of the 6 issues of Northern African Wireless Communications per year carries a sponsoring company on its front cover giving a high impact profile. This sponsorship includes presence on the cover, the contents page and through a full-page advertorial within the issue itself – see below.

We design all three elements of the cover package to your approval from the raw material you provide – this is what we need:

FRONT COVER
• A high resolution visual - 300dpi at A4 size • A high resolution logo - 300dpi
• A slogan/catchphrase

CONTENTS PAGE
• 100-150 words of text about the company
• Contact details - address, tel, email fax and/or web address

ADVERTORIAL
• A maximum of 750 words of text plus a headline
• Up to 2 visuals to support this text - 300dpi
• A high resolution logo - 300dpi
• Contact details - address, tel, email, fax and/or web address
