

FEATURES LIST 2024

SOUTHERN AFRICAN WIRELESS COMMUNICATIONS

Welcome to the Southern African Wireless Communications magazine 2024 features list, which includes a detailed outline of magazine and website contributions we're seeking for the year ahead.

The magazine contains news and analytical features, case studies, products, and opinion pieces from some of the most influential people in the region. We've established popular columns with comment and opinion from industry experts, who contribute in-depth features to expand on a subject, technology, or strategy.

The features list includes contributions we're seeking during the year ahead, however, it remains subject to change as we react to events across the continent. All content is utilised as per the editor's discretion and carries no charge because relevant, focused, independent and informed content is the key to a strong and active readership. Any content that doesn't make the final cut of the magazine will be considered for our website - www.africanwirelesscomms.com

Please bear in mind our readership should you wish to pitch ideas or partner with us. Each reader either influences, specifies, or purchases wireless communications equipment, services, and infrastructure – including associated consultancy, systems integration, as well as test, measurement, and maintenance equipment.

Below are the regular issues columns and comments – contact us if you'd like to get involved with any of these.

News & Analysis

A close look at what's going on in the north, east, west and central parts of the continent

Wireless Business

Financial reports, deals, who's hiring and who's firing

Wireless Solutions

New products and services available to wireless users

Wireless Users

Case studies highlighting customer and sector success stories across the continent

Industry View

Comment from an industry luminary on the issues impacting wireless comms

Talking Satellite

GVF tells us what's hot in satellite as each issue goes to press

On the Network

A more technical analysis of what's going on in the sector

Q&A

A soft feature with a C-level industry luminary, in which they talk about their life

View from the Top

An opinion/thought leadership piece penned by senior managers, in which they offer strategic commentary

Talking Critical

Opinion from the critical comms arena

In addition to the above, we also have the African Wireless Communications e-newsletter, which combines the best content from each magazine and the website. Even if your content doesn't make the magazines, we are keen to populate our website with news and comment on the topics below and are open to any ideas you may have.

We look forward to working with you again this year and hope that 2024 brings us all good fortune!

JANUARY-FEBRUARY 2024
